

New Funding Opportunities Available: Collaboration Fund and Civic Engagement

Herb Kohl Philanthropies is pleased to announce the opening of two grant cycles.

The Collaborative Fund, a new grant opportunity at HKP, aims to support organizations collaborating across sectors to improve education, nurture and deepen civic participation, and support the health and well-being of communities in the Greater Milwaukee area. We are interested in partnerships, both established and developing, among two or more organizations that are working together to build lasting solutions to complex community challenges. If this sounds like a collaboration you are a part of, or are forming, please go to the Instructions for Collaboration section of the website to learn more about the opportunity, eligibility, and how to apply.

HKP is also inviting applications from Wisconsin organizations working to strengthen civic engagement and participation in our communities. We are interested in efforts that help people become more informed, connected, and engaged - including initiatives that build civic knowledge, encourage participation, foster civil dialogue, increase trust and create meaningful opportunities for people to contribute to their communities. If your organization is helping people find their voice, participate, and make a difference, we want to hear from you. Learn more about the opportunity, eligibility, and how to apply at the Instructions for Civic Engagement section of our website.
